

Will Midphase Transfer All My Content From My Previous Host

This article contains information about transferring your files to Midphase.

No one likes to migrate from one host to the next, so we're here to help you out along the way. We'll do our best to transfer all your files and databases from your old host to us **FREE OF CHARGE!**

We cannot guarantee that we will be able to transfer all of your files, but we will do our best. If you had cPanel hosting previously, there is an easy way to switch.

After you sign up with us, please complete this form: <http://www.midphase.com/quickswitch/>

If we need any further information, we'll contact you.

Quick Switch is offered **FREE** to clients that sign up for our Linux Personal, Professional, or Business Plans. One of our Transfer Specialists will spend up to 3 hours moving your site files to your new Midphase account.
