

My Account Renewed But I Want To Cancel And Get A Refund

This article contains information on the Terms of Service about the refund policy after a renewal.

Please see our Terms of Services in regards to our Automatic Renewal Policy. All accounts are set up to automatically renew at the end of a billing period. You must have canceled fourteen days prior to your renewal date by submitting your request through our cancellation website at <http://cancel.midphase.com>. Because you did not cancel, your account renewed for a new term. The renewal fee is nonrefundable as soon as it is charged.
