

How Can I Protect The Images On My Website

This article contains information about protecting the images on your website.

Follow the directions below.

```
<h1>And here is the 'no right clicks' script.</h1>
```

```
<p>You can stop right clicks with a script (copy and paste it from this page if you want to) in the HEAD section of your page.</p>
```

```
<p><font color="#cc0000">
```

```
<script type="text/javascript"><BR><BR>
```

```
var msg="mouse right click disabled.nn(or any message you want)";<BR><BR>
```

```
function click(e) {<BR>  
if (document.all) {<BR>  
if (event.button == 2) {<BR>  
alert(msg);<BR>  
return false;<BR>  
}<BR>  
}<BR><BR>
```

```
if (document.layers) {<BR>  
if (e.which == 3) {<BR>  
alert(msg);<BR>  
return false;<BR>  
}<BR>  
}<BR>  
}<BR><BR>
```

```
if (document.layers) {<BR>  
document.captureEvents(Event.MOUSEDOWN);<BR>  
}<BR>  
document.onmousedown=click;<BR><BR>
```

```
</script><BR></font></p>
```
