

How To Change Your Account Password

This article will guide you through the steps necessary to change your Midphase CHI account password.

If you know your current login password or are currently signed into CHI, you can change your password from within your dashboard.

- Step 1: Open your personal information page by clicking on the “account” tab represented in the icon below.
- Step 2: Click on the “Personal Details” tab at the top of the page
- Step 3: Enter your current password and your new password into the appropriate fields.
- Step 4: Click the “Update Password” button.

Step 1: Open your personal information page by clicking on the “account” tab represented in the icon below.

Step 2: Click on the “Personal Details” tab at the top of the page

Step 3: Enter your current password and your new password into the appropriate fields.

A screenshot of a web form titled "Change Password". It contains three input fields: "Current Password", "New Password", and "New Password (again)". Each field has a small eye icon to its right. The "New Password" field includes a strength indicator labeled "Average strength" with a progress bar. At the bottom of the form is a blue button labeled "Update Password".

Step 4: Click the “Update Password” button.

You have now successfully updated your password.
